

The Nice logo is a white square with the word "Nice" in a bold, white, sans-serif font.

Nice

Gate and Door Automation Systems

A blue Nice sliding gate automation system is shown installed on a concrete wall next to a blue car. The system consists of a blue motor unit and a blue receiver unit.

Smart Solutions
for Sliding
Gates

A black Nice garage door automation system is shown installed on a garage door. The system consists of a black motor unit and a black receiver unit. A black car is parked inside the garage.

Smart Solutions
for Garage
Doors

Several Nice remote controls are shown. There are blue, black, and white remotes with various colored buttons (red, green, yellow, blue, purple).

Longest Range
Transmitters
and Receivers

A white car is driving through a Nice vehicle access system. The system consists of a white vertical post and a white horizontal bar. The bar has the Nice logo on it.

High Speed Sliding & Swing Gate Operators

- Proven Reliability
- 98+% Duty Cycle*
- Easy-to-use Advanced Electronics
- Class Leading Security Features

*Power Pack Motors

Designed for residential sliding gates, up to 300 kg

Drive 300

FEATURES:

- **Cost Effective** residential sliding gate automation
- **Tough DC Motor** with removable brushes for easy maintenance
- **LED Display** for easy programming and diagnostics

Security:

- Gate and beam tamper alarm monitoring
- Electronic locking of motor unit with remote control for added security
- ET-Blu Mix® enhanced rolling code receiver on board

Designed for high-traffic sliding gates, up to 1000 kg

Drive 1000

FEATURES:

- **Heavy duty robust design** for high-traffic industrial sliding gate automation
- **Proven Power Pack** operation with true battery backup
- High speed motor with intelligent control
- **Advanced Electronics** with large back-lit display for easy programming, diagnostics and fault reporting
- Designed to house up to two 24V 3.5Ah batteries for extra internal battery backup

Security:

- Gate and beam tamper alarm monitoring
- Optional heavy duty security bracket
- ET-Blu Mix® enhanced rolling code receiver on board

Designed for high-traffic sliding gates, up to 2500 kg

RUN 2500

FEATURES:

- **Perfect movement:** Increased torque, thus improving performance
- **Simple to install:** The BlueBUS system enables connections by means of just two wires between the control unit and up to 15 control safety and signalling devices
- **Safe:** The acceleration settings and the deceleration settings, are precise and reliable
- **The temperature sensor:** Run is able to manage force, adapting it to the different climatic and environmental conditions
- **Very quiet:** Gear motor on bearings

Designed for heavy duty sliding gates, up to 4000kg

TUB 4000

FEATURES:

- **Powerful:** ideal for automating large industrial gates up to 4000kg.
- **Functionality and Safety:** programmable, with electromechanical brake to eliminate gate inertia, self-ventilated motor to increase the working cycles.
- **Maximum durability and silence:** bronze and metal gears.

Designed to automate residential swing gates, with gate leaves of up to 3m each

WINGO

FEATURES:

- **Hi-Speed** operator for swing gate leaves up to 3m
- **Robust** cast aluminium design with powder coating
- **Low noise** operation
- **Proven power pack** operation with true battery backup
- **LED display** for easy programming and diagnostics
- Magnetic encoder ensures reliable and precise obstacle detection
- ET-Blu Mix® enhanced rolling code receiver on-board

Designed to automate residential and industrial swing gates, with gate leaves of up to 7m each

TOONA 7

FEATURES:

- **Powerful operator** for swing gate leaves up to 7m
- **Robust** cast aluminium design with powder coating
- **Proven power pack** operation with true battery backup
- **LED display** for easy programming and diagnostics
- Magnetic encoder ensures reliable and precise obstacle detection
- Easy installation, operation and maintenance
- ET-Blu Mix® enhanced rolling code receiver on-board

Designed for residential sliding gates, up to 500 kg

Drive 500

FEATURES:

- **Proven** robust and reliable residential slide gate automation
- **High Speed Motor** with removable brushes
- **Advanced Electronics** with large back-lit display for easy programming, diagnostics and fault reporting

Security:

- Gate and beam tamper alarm monitoring
- Pin code lockable programming
- Optional heavy duty security bracket
- ET-Blu Mix® enhanced rolling code receiver on board

Designed for high-traffic sliding gates, up to 500 kg

Drive 500

FEATURES:

- **Proven Power Pack** for high traffic applications with true battery backup
- **High speed motor** with removable brushes
- **Advanced Electronics** with large back-lit display for easy programming, diagnostics and fault reporting

Security:

- Gate and safety beam tamper alarm monitoring
- Pin code lockable programming
- Optional heavy duty security bracket
- ET-Blu Mix® enhanced rolling-code receiver on board

South Africa's Favourite Garage Door Operators

- Proven Reliability
- Robust Construction
- Intelligent Design
- Safe Operation
- Easy to install

Designed to automate residential swing gates, with gate leaves of up to 6m each

TITAN

FEATURES:

- **Reliable**
- **Easy to install**
- **Versatile**
- **Practical and Safe**
- **Easy Access** to Internal components
- ET-Blu Mix® enhanced rolling code receiver on-board

Designed to automate residential and industrial swing gates, with gate leaves of up to 4m each

ELITE

FEATURES:

- **Powerful operator** for swing gates up to 4m
- **Soft start/stop facility**
- **LED array** and display for indication of gate motor status
- **General purpose relay**
- **Battery back-up**
- **Loop detector facility**
- **A.S.A.P mode** ensures fast gate auto-close
- **Optional plug-in receiver**
- **ET-Blu Mix® enhanced rolling code** SMXI receiver - uncrackable, unhackable
- **Lip function**

Designed to open and close residential overhead sectional doors of up to 12m², at high speed, for added security.

DC Blue ADVANCED Hi-Speed

Designed for residential sectional overhead and trackless tip-up garage doors of up to 15m²

DC Blue ADVANCED

Designed to automate residential roll-up garage doors of up to 8m²

DC Blue ADVANCED ROLL-UP MOTORHEAD

DC Blue ADVANCED ROLL-UP CONTROL BOX

FEATURES:

- **Cost effective** roll-up garage door automation
- **Not battery dependent**, 60W power-supply driven
- **Simple** two button setup without limit switches
- **Security:**
 - Door and safety beam tamper alarm
 - Positive close mode
 - Electric lock control
- Built-in ET-Blu Mix® enhanced rolling code receiver
- **Intelligent** safety beam input and load profiled obstruction sensing
- **Convenient** 400 lumen high bright led light

Designed for commercial and industrial sectional overhead garage doors of up to 20m²

SOON

FEATURES:

- **Robust construction** and reliable operation for demanding applications
- **Easy to install**
- **Fits** onto shaft directly
- **Narrow profile** - for limited space installations
- **Absolute encoder** - for greater position precision
- **Safe** operation with obstacle detection
- **Smooth** movement with selectable speeds and adjustable slow-down options
- ET-Blu Mix® enhanced rolling code SMXI receiver - uncrackable, unhackable

Designed for commercial and industrial sectional overhead garage doors of up to 35m²

SUMO

FEATURES:

- **Strong** motor and gearbox construction
- **Easy to install**
- **Fits** directly onto shaft
- **Narrow profile** - for limited space installations
- **Magnetic encoder** - no need to adjust limit switches
- **Safe** operation with obstacle detection
- **Service warning light** for door maintenance
- **Integrated battery charger**
- **Optional integration** with ET-Blu Mix® Transmitters and Receivers

FEATURES:

- **Robust construction** with metal chassis and gears
- **Reliable** and proven DC Blue Advanced technology
- **Intelligent** door load profiling for added safety and control
- **Simple** to program and fault find with 7 segment LED display
- **Sleek, modern design**
- **Safety beam input**
- **Selectable automatic closing time**
- **LED courtesy light** and optional external light control
- **Optional electronic lock control** for added security
- Built-in ET-Blu Mix® enhanced rolling code receiver - Uncrackable and Unhackable

Nice Video Gate Station, Colour, 4 Wire, Die-cast Aluminium, Silver

FEATURES:

- **Robust** die-cast aluminium
- **Slim, elegant profile**
- **High definition** colour camera with wide angle lens
- **LED** Night light compensation. (Down to 0.1Lux)
- **Stainless steel** rain shield option available

Nice Video Gate Station, Colour, 4 Wire, Brushed Aluminium

FEATURES:

- **Extreme weather resistant**, brushed and anodized aluminium housing
- **High definition** colour camera with wide angle lens
- **LED** Night light compensation. (Down to 0.1Lux)
- **Backlit** name tag and call button

Longest Range Transmitters, Receivers & Keypads

- Class Leading Range
- Proprietary Double Encryption ET-Blu Mix Rolling Code
- Uncrackable / Unhackable
- Robust and Reliable

404 MHz Nice ET-Blu Mix® Rolling Code Receivers

TX2-MICRO

RX2-MICRO

Long-range Outdoor Transmitters & Receivers

**Nice TX2WP-RC
Nice RX2WP-RC**
Transmitters and Receivers

FEATURES:

- A cost effective wireless solution for cable replacement
- Class leading transmission range of up to 1000m*
- Compact design. 40mm x 34mm x 19mm
- Examples of uses are: Electric fence alarm output linked to the house alarm, house alarm PGM outputs linked to the garage door motor, gate motor or switching lights on and off

* Radio transmission ranges quoted, are based on clear line of sight usage in a radio clutter free environment.

FEATURES:

- A cost effective receiver solution
- Compact design. 40mm x 34mm x 19mm
- Simple and easy to setup
- Examples of uses are: switching alarm functions such as arm/disarm, panic activation, triggering garage door, barrier and gate operators

E-Pad 02 Active - Wireless Access Control Keypad

E-Pad 02

FEATURES:

- Compact, stylish design
- Weatherproof
- Rugged
- Vandal resistant
- 250m transmission range
- ET-Blu Mix® enhanced rolling code - Uncrackable / Unhackable

E-Pad - Access Control Keypad

E-Pad

FEATURES:

- Weatherproof, stainless steel housing (IP65)
- 99 User selectable 4 to 8 digit operating codes
- Vandal resistant
- Keypad deactivation after multiple incorrect code entries (Anti-hacking)
- Anti-tamper switch (Standard)

GSM

Take control of your world, now from anywhere in the world.

- GSM Switch
- Smart On-line Transmitter Management
- GSM Intercom

Traffic Barrier Systems - High and Medium Traffic Applications

Easy setup with large back-lit LCD

Easy access via removable top cover, full front panel and control box

*Additional lead time and costs apply on custom colours.

High and Medium Traffic Applications

TECHNICAL SPECIFICATIONS				
	High Traffic Application		Medium Traffic Application	
Primary power supply:	ACCESS AC HS	ACCESS ACDC M	ACCESS ACDC L	WIDE M
Electrical class:	AC 220 – 240v @ 50Hz – 60Hz			WIDE L
Peak power consumption:	Class 1			
Motor voltage:	120W	240W		
Motor current:	AC 230v	DC 24v		
Built in battery charger:	0.5A	Current limited to 10A		
Number of operations, within 24hrs of power failure, on battery reserve:	N/A	Multiple stage auto-calibrating (Peak - 500mA)		
(Battery health and charge level at time of power failure dependent)	N/A	650 Using 1 x 24v 5Ah battery (Standard in kit)		
	N/A	950 Using 2 x 24v 3.5Ah batteries		
	N/A	1300 Using 2 x 24v 5Ah batteries		
Maximum operations per 24hrs. If used continuously:	3000		411	
Maximum operations per hour. If used continuously:	125		17	
Operating speed:	90°/1.2s	90°/3.5s	90°/6s	90°/3.5s
Torque:	65Nm	140Nm	220Nm	140Nm
Anti-crushing safety sensing:	Torque limited clutch	Yes – Electronic load profiling		200Nm
Auxiliary supply output:	160mA DC @12v	400mA DC @12v		
Receiver format:		ET BLU MIX © backward compatible with ET BLUE (Rolling code)		
Receiver frequency:		433.92MHz		
Receiver channels:		4CH (BT, Open only, Aux relay, Holiday lock-out)		
Receiver memory capacity:		1023 users		
All users can be allowed control of all channels:		Yes		
Operating temperature range:	-10 to 50° C (14F to 122F)			
Ingress protection:	IP44			

Pole Capabilities and Limitations:

	Access Manual Barrier	Access AC HS Barrier	Access ACDC M Barrier	Access ACDC L Barrier	Wide M Barrier	Wide L Barrier
Fixed Length Boom Pole - 3m:	Y	Y	Y	Y	Y	Y
Fixed Length Boom Pole - 4m:	Y	N	Y	Y	Y	Y
Fixed Length Boom Pole - 5m:	N	N	N	N	N	Y
Fixed Length Boom Pole - 6m:	N	N	N	N	N	Y
Fixed Length Boom Pole - 7m:	N	N	N	N	N	Y
Telescopic Boom Pole - 4-6m:	N	N	N	Y	N	N
180° Jack-knife Pole - 3.1m: (Fits beneath 2.2m overhead structures, when open)	N	N	N	Y	N	N
Fence Boom Pole - 3m:	N	N	N	Y	N	N
Fence Boom Pole - 4m:	N	N	N	Y	N	N
Fence Boom Pole - 5m:	N	N	N	Y	N	N
